# To the Trade

This catalog supersedes all previous issues. The prices cancel all quotations made on goods illustrated herein whether previously made by circular, catalog or letter.

All lamps, burners, mantles, etc., are made in our own factories under the supervision of a corps of trained experts, backed by the accumulated experience of twenty-five years of constant practical study of incandescent gas lighting. Our success is based on the inventive genius and scientific research of Dr. Auer von Welsbach.

Our plant is the largest, best organized and most completely equipped for its particular line of manufacture in the world. Every article offered can be depended upon as the best possible quality that can be produced at the price.

Your communications will receive careful consideration—your orders prompt attention.

## Terms

To purchasers having satisfactory mercantile rating, net cash 30 days.

To purchasers not so rated, goods will be shipped C. O. D.

All prices not otherwise stated are F. O. B. cars at point of shipment.

Packages will be charged at manufacturer's schedule.

No allowance for breakage.

# WELSBACH MANTLES

**Style of mounting distinctively Welsbach. Ring-top Cap. Asbestos tied, nickel-wire support, sheathed with a refractory magnesia tube.**

The maximum durability of this type of Welsbach Mantles is due to several features peculiar to Welsbach Mantles alone — mantle is rigidly suspended over the cap, thus preventing fraying or breaking at the skirt from vibration, the strain being taken up at the head of the mantle, which is hardened with a specially prepared chemical solution. A refractory tube is used to prevent bending of the supporting wire.

**No. 189**
YUSEA BRAND
Strongest and brightest mantle made.

# IMPORTED AIR-HOLE GLASSWARE

**Packages charged at Manufacturer's Schedule**

## F. Q. M.

**"Finest Quality Made"**

The problem of making glassware to withstand the intense heat of an incandescent mantle is one that has required years of study and experiment on the part of the manufacturers.

After investigation, the Welsbach Company has established exclusive relations with one of the largest and most skillful manufacturers of high-grade, heat-resisting glasses in Austria, and imported a line of glassware under the brand "F. Q. M."

The quality and workmanship of this brand of glass have never been excelled, and numerous photometric tests have been made, giving it the preferred position in the very important points of uniformity in structure and high diffusive power—thus proving it in every way the "*Finest Quality Made.*"

**The glassware illustrated on this page will be repacked in cases containing six dozen pieces at the original package price, an extra charge of 50 cents net being made for the package. When taken in original packages, no charge for package.**

# WELSBACH-HOLOPHANE REFLECTORS

**A new type known as "STILETTO" Reflectors. *More Attractive. Edges are thinner; glass is more brilliant* and *greater* sparkle is obtained in the new "STILETTO" prisms**

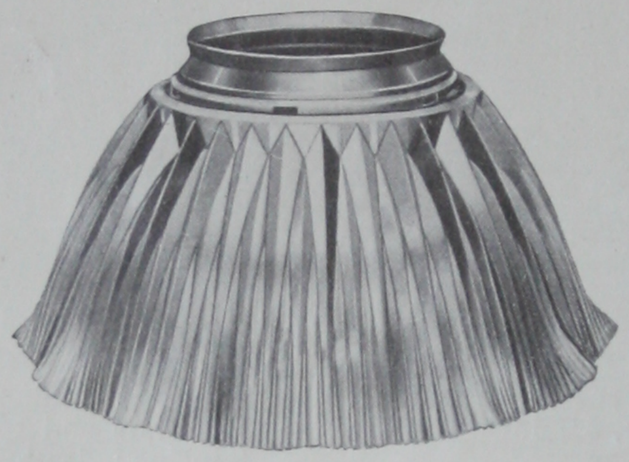
**Twenty per cent. lighter in weight** **Very much higher efficiency** **A gain in useful illumination**

**Patented Welsbach Metal Collar — positive insurance against breakage from heat**

**No. E—1**

EXTENSIVE REFLECTOR (8152)

For general illumination of moderate-sized rooms either by means of single distributed units or by "Reflexoliers" or chandeliers. Very effective with low ceilings.



**No. I—1**

INTENSIVE REFLECTOR (8151)

For locations where higher intensity is required than that obtained from No. E-1. Adapted for medium to high ceilings and should not be used in low-ceiled rooms.

**No. F—1**

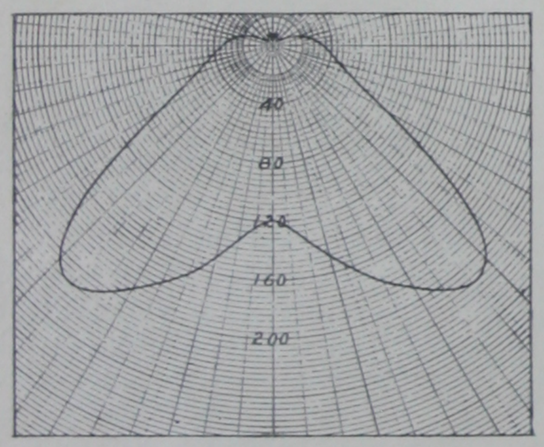
FOCUSING REFLECTOR (8153)

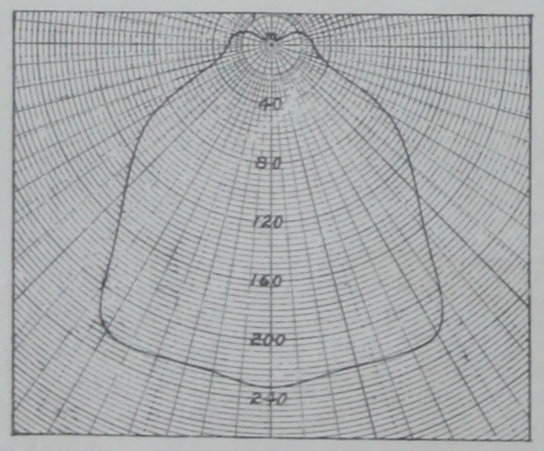
For show-window lighting and all exceptionally high-ceiled rooms. Throws a very intense light over a comparatively small area.

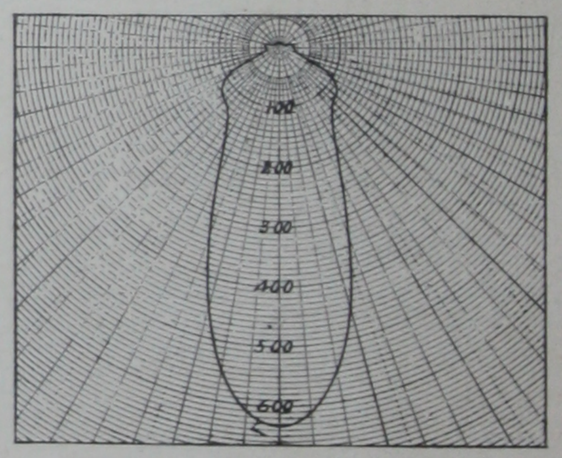
PRICES, including metal collar:

Original package, per dozen, . . . . . **$12.50** Broken package, per dozen, . . . . . **$14.00**

**No charge for package. Original package contains 3 dozen.**







Characteristic curves of "Reflex" Lamps equipped with Welsbach-Holophane Reflectors Nos. E-1, I-1 and F-1 respectively, on water gas of 18.01 C. P. of 590 B. T. U's. at 2½-inch pressure, consuming 4.2 cubic feet of gas per hour.

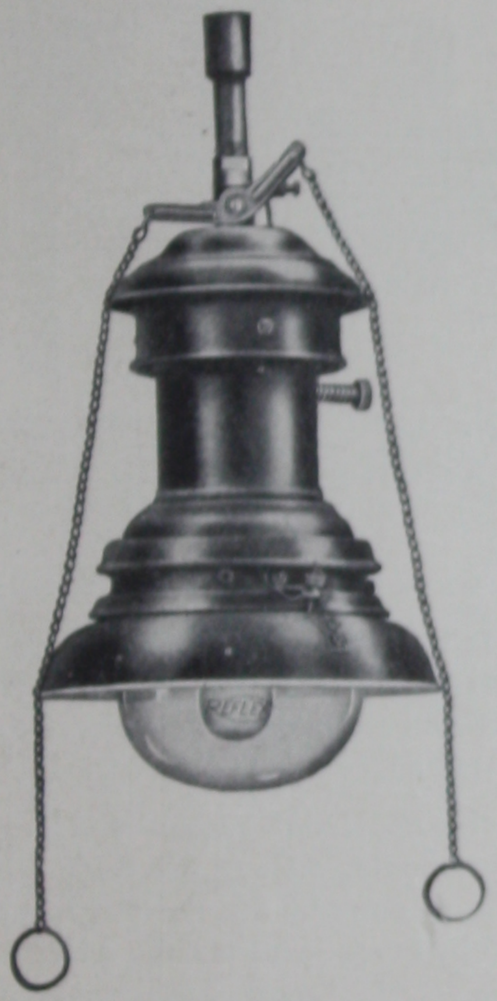
# WELSBACH INVERTED PORTICO LAMPS

For all semi-exposed places — porticos, entrances, etc. Wind, storm and insect-proof.

Exterior of lamps made of enameled steel. Gas and pilot-flame adjustment by means of needle valves from outside.

The globes on designs No. 901 and No. 902 are supported in a flanged reflector that provides for heat expansion. The reflector being hinged, it can readily be lowered for cleaning or trimming the lamp.



**No. 902**

INVERTED PORTICO LAMP
Single Burner

Equipped with No. 5 clear bowl globe and steel enameled reflector 8⅜ inches in diameter and 1½ inches deep. Finish, dark green enamel or white and gold enamel.

Dimensions: Length over all, 16 inches; diameter of globe, 5 inches; depth of globe, 4 inches.

| | Dark Green | White and Gold |
|---|---|---|
| Price, complete, without mantle, | **$8.00** | **$9.00** |

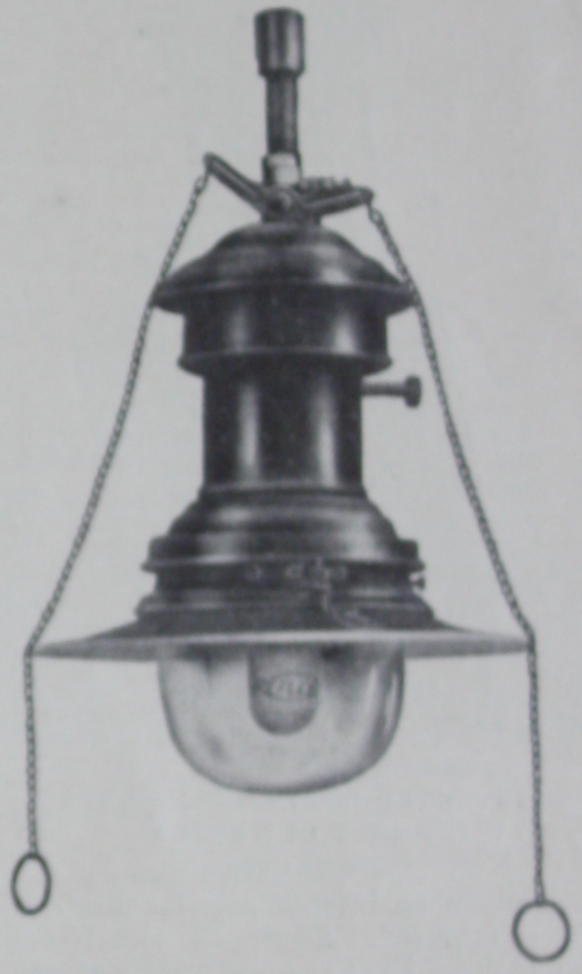
**No. 900**

INVERTED PORTICO LAMP
Single Burner.

Equipped with 7-inch alabaster or sand-blast ball globe. Finish, dark green, or white and gold enamel.

Dimensions: Length over all, 17½ inches.

| | Dark Green | White and Gold |
|---|---|---|
| Price, complete, without mantle, | **$8.00** | **$9.00** |



**No. 901**

INVERTED PORTICO LAMP.
Single Burner.

Same as 902 portico lamp, except steel enameled reflector, which is flat, and 10 inches in diameter. Finish, dark green enamel or white and gold enamel.

| | Dark Green | White and Gold |
|---|---|---|
| Price, complete, without mantle, | **$8.00** | **$9.00** |

# WELSBACH PORTICO LAMP AND SIGN FRAMES

**No. 906**

INVERTED PORTICO LAMP WITH ANGLE REFLECTOR

Single Burner.

For use where an intense angular distribution of light is required. Equipped with No. 5 clear bowl globe. Finish, dark green enamel. Dimensions: Length over all, 18 inches; diameter of globe, 5 inches; depth of globe, 4 inches. Angle Reflector of sheet metal, dark green outside, aluminum inside. Dimensions of Reflector: Width, front, 9 inches; back, 6½ inches; depth, front to back, 6¾ inches; height, 8½ inches.

Price, lamp and reflector, each, . . . . **$10.10**
No. **109** Price, reflector alone, each, . . . **2.60**

**No. 111**

TWO-PANEL ANGLE SIGN FRAME

For use with Nos. 901 or 902 Portico Lamps in displaying trade names, trade-marks, etc. Made in one, two, three or four panel forms. Easily attached to lamp. Size of panels, 9 by 12 inches.

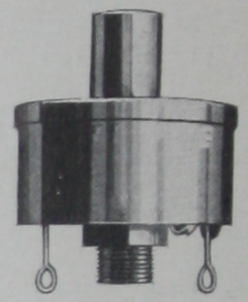
PRICES:

No. **110** One-panel Frame, glass not included, each, . . . . . **$2.00**
No. **111** Two-panel Frame, glass not included, each, . . . . . **2.75**
No. **112** Three-panel Frame, glass not included, each, . . . . . **4.50**
No. **113** Four-panel Frame, glass not included, each, . . . . . **5.50**
Glass for Sign Frames, per panel, unlettered, **.75**

**We suggest that glass for the Sign Frames be procured and lettered by your local dealer, thereby avoiding danger of breakage in transit and freight charges.**

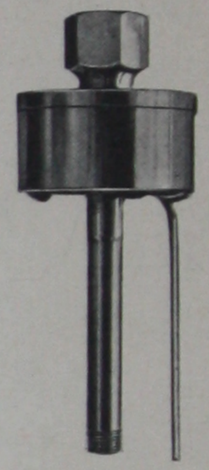
# WELSBACH MAGNET VALVES

**These valves are gas cocks, not igniters**



**No. 119**

MAGNET VALVE



**No. 120**

MAGNET VALVE

Can be used on gas pressures up to 50 tenths.

For use on lamps not readily accessible; operated by a set of dry cells (not less than four) connected by an ordinary wire circuit, controlled by a push-button.

The construction is high-grade. The sheet-copper shell fits snugly, making the valve rain-proof; the coils are powerful and the interior mechanism is carefully fitted, inspected and adjusted.

Orders must specify style of lamp to which Magnet Valve is to be attached. This information is necessary to insure valve being fitted with proper pilot tube extension. *We fit valves to lamps on which they are to be used without charge, and we strongly recommend ordering in this way.*

No. **119** Magnet Valve, for portico and arc lamps or for chandeliers, price, each, . . **$5.50**
No. **120** Magnet Valve, for single "Reflex" lamps, price, each, . . . . . **4.50**

# REFLEXOLIER WITH FILAMENT IGNITION

Lighted without matches, pilot or a flame of any kind. A pull on the chain turns on the gas and simultaneously makes connection between the igniter in the crown of the "Reflex" lamp and the battery contained in the center of the fixture. The current brings the filament in the igniter to a red glow, catalytic action instantly raises the temperature of the filament to the kindling point, the gas ignites and the lamps are lighted without bother, loss of time or perceptible drain on the battery. Quick, convenient and economical.

Equipped with the new No. 6 size "Reflex" burners which have the quick detachable glassware holders, doing away with the bother of set screws and obviating the breakage of glassware, specially lacquered and lined on the inside with aluminum, practically overcoming tarnishing troubles.

Brushed brass finish; round casings; stem, 1 inch diameter; arms, 7/8 inch diameter; drop, 24 inches; spread of arms, 21½ inches. Sliding canopy; diameter, 5 inches; depth, 3¾ inches.

**No. 1035**

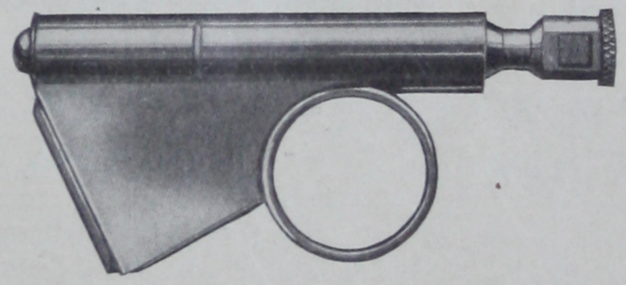
| Per 100, . . | **$39.00** | **$43.00** |
| " dozen, . | **5.00** | **5.50** |

## AUTOMATIC LIGHTERS

**No. 8.** STOVE LIGHTER

An application of a recent discovery by Dr. Carl Auer von Welsbach, inventor of the Welsbach mantle. When the cone is placed against the open burner of a gas range, a quick downward pressure on the handle produces a shower of sparks, which ignites the gas. *Not electric.* Length, 8 inches.

Price, per gross, **$216.00**; per dozen, . . . . . **$18.60**



**No. 29.** POCKET LIGHTER

Same principle of operation as No. 8 Stove Lighter but made in pocket form. Especially valuable for automobilists—a key for turning on "Prest-o-lite" tanks is slotted in the handle. Length, 2½ inches.

Price, per gross, **$216.00**; per dozen, . . . **$18.60**

These lighters will ignite *any* gas instantly and without danger. The spark *will not* set fire to cloth, wood, etc., unless these are saturated with a highly inflammable substance. The spark material (an alloy of iron and cerium) is very lasting, is in the form of a cube and is renewable when exhausted. Average number of ignitions from each charge of lighting material, 5000.

PRICES OF RENEWALS: Per gross, . . . . . **$57.60** Per dozen, . . . . . **$5.30**
